02 Users' Reviews

As a teacher, I am absolutely thrilled with Snow Pad! It's stylish and perfectly integrates with iPad. My students love it, and within just a few minutes, they were able to get the hang of it. In class, they can now clearly see both the textbook and the blackboard, which has significantly boosted their participation and enthusiasm. It's made a real difference in their classroom experience!

Kyle - October 18, 2024, USA

I am using the Snow Pad. A great helper when writing the cards for my family and friends in this holiday. Reading the good wishes from them is becoming a lot more easier with this device, too. Snow Pad is the best gift for myself in the New Year!

I bought Snow 12 for my grandma. She said it performs very well. Whenever she had any questions, she talked with the Zoomax people and they always help her in time.

Jonathan - March 4, 2022, USA

My vision is very limited and Snow 12 is a life-saver. It allows me to read the daily newspaper without holding a magnifying glass. I leave it on my dining table for convenience. I also take it when I go out, so I can use it anytime I like.

We tested the Snow Eye distance camera in our center. Many users found it a great help in daily life. Some of them connected Snow Eye with their computer, while some of them use laptop or Zoomax Snow 12. It doesn't need any firmware installation and definitely easy for the setup. The optical zoom brings amazing picture quality! We all love it!

Low Vision Center – April, 2024, USA

Snow Eye is my most favorite low vision aids at Sightcity 2024! I love its compact design and extremely superior image quality. My vision is very bad. It is unbelievable that I could see things ten meters away clearly with the help of Snow Eye! Really hope it will benefit more people with vision loss.
